Well Beyond Grit: SAWS Septage Receiving Sees and Solves Disturbing Debris Issue

The SAWS septage receiving facility knew they would encounter oddities in their course of operation, but nothing would prepare them for the bulk of strange material that comes through the lines after a festival. [Learn more](#)

FEATURED PRODUCT 180X130

NEW Onset Hobo MX2501 – pH and Temperature Logger

The new low-cost HOBOb MX2501 pH and temperature logger is designed for long-term water monitoring. It communicates wirelessly via Bluetooth (BLE) to the HOBObmobile app on your phone, making logger setup, calibration, and data offload quick and easy, with no need for extra equipment or complicated calibration.
